

## **Perceptions and Opinions of Canadian Hospital Executives about Medication Management: Correction**

Because of an error during production of the January–February 2008 issue, the acknowledgements section was omitted from a survey article reporting the perceptions and opinions of Canadian hospital executives regarding medication management, by Neil J MacKinnon and others.<sup>1</sup> The missing material is presented here.

### **Acknowledgements**

We are grateful for a financial contribution from the Health Policy Research Program, Health Canada, which allowed completion of project 6795-15-2001/4410016, entitled “Evaluation of an Integrated Model and Iterative Loop for Assessment of Drug Effectiveness in the Real World” (Colleen Metge, principal investigator) and reported in part in this article. In-kind support (technical and other) was provided by the Canadian Council of Health Services Executives.

The contributions of Wade Blanchard, Ron Fraser, John Hylton, Pamela Kennedy, Jocelyn LeClerc, Sandra MacDonald-Rencz, and Linda O’Rourke are acknowledged.
