

Index to Volume 62 (2009)

The index to Volume 62 contains a subject index and an author index.

In the **subject index**, items are listed under key words as found in the US National Library of Medicine's Medical Subject Headings thesaurus.

In the **author index**, all contributing authors are listed alphabetically with the surname first and initial following. If an item has more than one author, the title is documented under the author name that appeared first when published in the *CJHP*. All other authors are listed referring to the name of the principal author, with the abbreviation "Jt Auth" indicating joint authorship.

This index is by Holly Ebbs and Heather Ebbs.

Codes in parentheses before the page numbers indicate the nature of the item. The following codes are used in this volume:

A – Article

Abs – Abstract

BOM – Books and Other Media

CR – Case Report

E – Editorial

EDR – Executive Director's Report

L – Letter to the Editor

RPT – Report from the Presidential Team

PP – Pharmacy Practice

PCP – Point Counterpoint

SMP – Safe Medication Practices

SN – Society News

Abstracts

- Adherence to thromboprophylaxis in post-orthopedic surgery patients at a community hospital (Jones and others) 343
- Affichage en temps réel de la production dans un satellite d'oncologie (Lebel and Bussièrès) 67
- Analysis of patient controlled analgesia and oral step-down therapy for quality improvement in pain management (Brockhouse and Tanzini) 75
- Assessing the clinical usefulness of checking postprandial glucose levels when fasting glucose levels are near normal in patients with type 2 diabetes (Mansell and others) 73
- Benefit of achieving higher AUC/MIC targets with ciprofloxacin when treating enterobacteriaceae bloodstream infections (Zelenitsky and others) 340
- Can pharmacy students effectively partner with pharmacists to support medication reconciliation for patients? (Lam and others) 70
- Capturing outcomes of clinical activities performed by a rounding pharmacist practicing in a team environment: The COLLABORATE Trial (Makowsky and others) 80
- Case report: Sibutramine-associated unstable angina (Bateman and others) 75
- Cesium induced cardiac arrest (Wiens and others) 77
- Clinical benefits and economic impact of surgical pharmacists at Capital Health: Preliminary results (Lummis and others) 338
- Clinical pharmacy support technicians: Increasing pharmaceutical care practice efficiency in the intensive care unit setting (Mabasa and others) 80
- Comparaison du niveau d'accord à des énoncés sur l'éthique pharmaceutique entre des internes français et québécois (Bussièrès and others) 66
- Comparing continuously-infused amphotericin-B with liposomal amphotericin: A Monte Carlo analysis (Ariano and Zelenitsky) 339
- A computerized pharmacy generated medication reconciliation process for transfer from the intensive care unit reduces discrepancies and order writing time (Caligiuri and others) 345
- Computerized prescriber order entry and medication reconciliation: Friends or foes? (Lee and others) 71
- Concurrent development of a prescriber order entry system with a bidirectional pharmacy interface (Thickson and McKenzie) 343
- Conversion from darbepoetin alfa to epoetin alfa for the treatment of anemia associated with chronic kidney disease in dialysis patients (Raymond and Wazny) 341
- Creation of a research assistant position as a University of Waterloo co-op pharmacy student experience (Farrell and others) 70
- Daily dalteparin for the treatment of pulmonary embolism in a hemodialysis patient (Lang and Ariano) 338
- Developing strategies to improve medication reconciliation on hospital admissions (Lam and others) 76
- Development and evaluation of a multi-hospital structured pharmacy orientation program with an emphasis on patient safety (Woloschuk and Raymond) 78
- Development and implementation of a clinical performance assessment tool (Riley and Donaldson) 342
- Development and implementation of a pharmacy mentorship program (Satchu and others) 74
- Development of a chart audit process to facilitate pharmacists' documentation (Tom and Chong) 74
- Development of an evidence based handbook for healthcare providers on exposure to psychotropic medications and other substances during pregnancy and lactation (Wood and others) 75
- Development of a regional program for the safe handling of hazardous drugs by hospital pharmacies (Caligiuri and others) 342
- Development of a sustainable parenteral to oral antimicrobial monitoring protocol (Edmunds and others) 66
- Développement d'un livre pour l'enseignement de la législation en pharmacie (Bussièrès) 82
- Dofetilide is safe and effective in preventing atrial fibrillation recurrences in patients refractory to other antiarrhythmic agents accepted for catheter ablation (Shamiss and others) 71
- Drug dosing recommendations for continuous renal replacement therapy in tertiary references: A critical appraisal (Gorman and others) 72
- Efficacy, safety and patient satisfaction of propofol for procedural sedation and analgesia in the emergency department: A prospective study (Zed and others) 81
- Empiric vancomycin dosing guidelines based on pharmacokinetics in patients on continuous venovenous hemodialysis (van de Vijssel and others) 77
- Epoprostenol-associated thrombocytopenia associated with clinical bleeding (Parker and others) 74
- Establishing an interprofessional medication reconciliation process for elective surgery patients (Xie and Coates) 341
- Establishing a process for pharmacy technician initiated medication histories in the emergency department (Mistri and others) 344
- Évaluation d'un module web pour la localisation des médicaments d'urgence (Voytenko and others) 68
- Evaluation of an interdisciplinary approach to benzodiazepine tapering in a geriatric day hospital (Farrell and others) 69
- Evaluation of IV to PO conversion strategies in surgical areas (Chevalier and others) 69
- Evaluation of outcomes in patients who received activated protein C (drotrecogin alfa [activated]) in an intensive care unit: A retrospective, observational study (Maher and others) 73
- An evaluation of the accuracy and consistency of patient medication information at hospital discharge (Lacey and others) 80
- Examination of the long-acting beta-agonist formulary policy and inhaler technique (Stovel and others) 77
- Fentanyl patches: Analysis of international medication incidents (Cheng and others) 66
- The Guideline to Assess Pharmacotherapy Scale (GAPS): Preliminary data (Kellar and others) 72
- Heparin nomograms—Evaluation of adherence and effectiveness (Li and Cornish) 67
- Hormone replacement therapy: An analysis focusing on drug claims by female seniors 2000 to 2007 (Gaucher and Hunt) 70
- Hospital-wide multidisciplinary intervention improves prescribing for prophylaxis of the most common preventable cause of hospital deaths (Coates and Mistri) 340
- Identifying, understanding, and overcoming barriers to medication error reporting in hospitals in Nova Scotia, Canada (Hartnell and others) 345
- Impact of the medical home on the safety and quality of health care in Canada (Scobie and others) 345
- Implementation and evaluation of a database for "non-formulary" anticancer drug requests at CancerCare Manitoba (Lister and others) 343
- Implementation of a first dose antibiotic pharmacy program to ensure timely delivery of antibiotics to patient care areas (Caligiuri and others) 344
- Improving risk management with the development of a best evidence-based, provincial chemotherapy preparation and stability chart (de Lemos and others) 81
- Incidence, severity and preventability of drug-related visits to the emergency department: A prospective study (Zed and others) 80
- Intégration d'une base de données de produits de santé naturels à un progiciel pharmacie en établissement de santé (Lebel and others) 338
- Integration of a community-based medication history (MedsCheck) into peri-operative medication reconciliation (Charlesworth and others) 69
- Is total parenteral nutrition with 4 and 5 per cent amino acid solutions safe? (Iaboni and others) 72
- Latent opportunities for errors in medication orders in four health authorities (Pattar and others) 346
- Long term effect of a 30% ethanol / 4% sodium citrate locking solution on the mechanical properties of hemodialysis catheters (Vercaigne and others) 339

- Medication administration record action review (Dos Santos and others) 76
- Medication reconciliation: Towards a “best practice medication discharge plan” in a pediatric hospital (Ling and others) 345
- Medication reconciliation for elective surgical admissions (McFarlane and others) 77
- A medication reconciliation tool (Mikhail and others) 71
- Monitoring and documentation of outcomes from targeted interventions: An interprofessional quality improvement project (Jackson and others) 70
- Monte Carlo simulations (MCSs) of meropenem in patients with varying degrees of renal function (Zelenitsky and others) 68
- Mortality in febrile neutropenic patients treated initially with cefazolin and tobramycin (Le Piane and others) 73
- New Brunswick (NB) Heart Centre health improvement challenge (Searles and others) 341
- Pharmaceutical care in a prehabilitation clinic for patients undergoing elective total joint arthroplasty (Falk and Raymond) 342
- Pharmacists making house calls: An innovative role or overkill? (Virani and others) 81
- Pharmacokinetics of vancomycin and gentamicin in pediatric patients on extracorporeal life support (Tam and others) 82
- Pregabalin associated falls in an elderly patient with mildly reduced renal function (Simard and others) 71
- Process flow for erythropoiesis stimulating agents (ESA) delivery to hemodialysis (HD) patients at Toronto General Hospital—Process optimization and impact analysis of alternative dosing frequencies (Fung and others) 337
- Projet pilote de développement d’une banque de données d’image pour l’identification des médicaments en établissement de santé (Voytenko and others) 68
- Provision of an 8 hour clinical and distributional pharmacy service for a neonatal intensive care unit (NICU) at a tertiary care facility (Dyck) 338
- Quality improvement (QI) program to increase adherence with thromboprophylaxis guidelines in Toronto area hospitals (Geerts and others) 72
- A regional continuing professional development program for hospital pharmacy technicians (Hayes and others) 342
- A retrospective comparison of the Cockcroft–Gault modified diet in renal disease equations for renal dosing of oseltamivir in continuing care patients (Norris and others) 339
- Retrospective observational study of regularly-scheduled sustained-release hydromorphone in orthopedic surgery (Huber and Bisson) 337
- Reversal of parenteral nutrition-induced cholestasis in infants with intestinal failure using parenteral fish oil: A Canadian single centre case series (Karagodina and others) 66
- Revue d’utilisation de la ticarcilline/acide clavulanique en soins intensifs pédiatriques (Rauad and others) 67
- Selecting the best empirical therapy for patients in Canadian intensive care units (Zelenitsky and others) 340
- Sodium thiosulfate-based treatment in calcific uremic arteriolopathy: A provincial case series (Sood and others) 337
- Standard concentrations of high alert drug infusions across paediatric acute care (Irwin and others) 81
- Switching hemodialysis patients from epoetin alfa in multi-dose vials to pre-filled syringes is associated with cost savings (Wazny and others) 337
- A systematic review of Voluven® vs. Pentaspan® for volume expansion in surgery (Tejani and others) 344
- Systemic reaction associated with nitrofurantoin presenting as leukocytoclastic vasculitis (Wong and Bayliff) 74
- Teaching skills rotation for pharmacy residents (Lee and others) 76
- Therapeutic monitoring of doxycycline in Q fever endocarditis (Kuo and others) 340
- Topiramate-induced hemiplegia (Lamoure and Stovel) 73
- Unusual presentation of heparin-induced thrombocytopenia due to dalteparin (Fetterly and others) 343
- Use of the CSHP 2015 Self-Assessment Survey to determine progress toward CSHP VISION 2015 (Dore and others) 75
- Using a web based community of practice to drive change with medication reconciliation (Montoya and others) 344
- The utility of acetaminophen absorption testing in the critically ill (Ariano and others) 339
- Validating a nurses’ satisfaction survey about their perceptions of a surgical pharmacist (Chevalier and others) 69
- Validation of a computerized program (the Glucommander Method) for insulin infusion adjustments in a cardiovascular surgery intensive care unit (Yamashita and others) 68

Amphotericin B

Comparing continuously-infused amphotericin-B with liposomal amphotericin: A Monte Carlo analysis (Ariano and Zelenitsky) (Abs) 339

Analgesia, patient-controlled

Analysis of patient controlled analgesia and oral step-down therapy for quality improvement in pain management (Brockhouse and Tanzini) (Abs) 75

Stability of hydromorphone–ketamine solutions in glass bottles, plastic syringes, and IV bags for pediatric use (Ensom and others) (A) 112

Analgesics

Pregabalin associated falls in an elderly patient with mildly reduced renal function (Simard and others) (Abs) 71

Anemia

Conversion from darbepoetin alfa to epoetin alfa for the treatment of anemia associated with chronic kidney disease in dialysis patients (Raymond and Wazny) (Abs) 341

Anesthesia, spinal

Failure of spinal anesthesia with marcaine (bupivacaine): Recent cluster of cases (Nagata) (L) 255

Angina, unstable

Case report: Sibutramine-associated unstable angina (Bateman and others) (Abs) 75

Anti-arrhythmia agents

Dofetilide is safe and effective in preventing atrial fibrillation recurrences in patients refractory to other antiarrhythmic agents accepted for catheter ablation (Shamiss and others) (Abs) 71

Anti-bacterial agents

Does prolonged infusion allow lower daily dose of meropenem than bolus dosing? (Poulin and Brown) (L) 522

Identifying missed opportunities to curtail antimicrobial therapy for presumed ventilator-associated pneumonia using the clinical pulmonary infection score (Gorman and others) (A) 217
